

ABSA Biosecurity Symposium - Abstract Submission (Platform and Posters) Topics and Subtopics

REQUIRED: One topic and one subtopic. An optional third topic may be selected to further define the abstract.

Topics:

1. Biosecurity Governance (i.e., Statutes, Regulations, Guidance, and Standards)
2. Biosecurity in Non-Traditional Spaces (i.e., Do-It-Yourself [DIY] laboratories, field labs, makeshift laboratories, farms, etc.)
3. Biosecurity Engagement (i.e., public, scientific community, professional organizations, other health/healthcare professionals)
4. Bioeconomy and Bio-based Economy (i.e., production of non-food goods, production and use of food and feed)
5. Cybersecurity
6. Personnel Reliability and Suitability
7. Education and Training
8. Biosecurity Challenges, Successes, and Lessons Learned
9. Agricultural Biosecurity

Subtopics:

1. International biosecurity
2. Best management practices for biosecurity
3. Biosecurity self-regulation
4. Outbreak response
5. Developing/updating/refining and strategies for communicating biosecurity risks (methodology included)
6. Implementing biosecurity in non-traditional spaces (i.e., DIYbio community laboratories, capital/start-up, and food/nutrition using engineered organisms)
7. Information technology
8. Effective communication
9. Biosecurity challenges during outbreaks (i.e., endemic, epidemic, pandemic)
10. Biosecurity outreach and workforce/personnel
11. Biosecurity in high- and maximum-containment facilities
12. Biosecurity in clinical/diagnostic settings
13. Transportation security
14. Bioterrorism
